Respond by November 16th to be entered.

LIGHTING RETROFIT UPGRADES

Recently our service department has been inundated with requests for lighting retrofit upgrades. Many of these requests are for parking lot lighting to be upgraded from metal halide and high pressure sodium to the energy efficient LEDs in the pole lights and wall packs. Even exterior canopy and soffit lighting have become project requirements.

We have also received requests to retrofit the interiors of buildings and stores from the old T12 fluorescent lighting to either T8 or T5 bulbs and ballasts. Another popular proposal for interior retrofits is switching from fluorescents to PAR halogen lighting, or upgrading even higher to the LED type lighting.

Some of the types of upgrades we have completed are shown in the pictures below. Give us a call if you are interested in having your potential lighting upgrades assessed.

The winner of our \$100 AMEX Gift Card for the Yellowbook.com review is

Kim Fisher

NORTHSTAR's Staff Members

Mohamed Kherdal Technician

Mohamed has the strongest work ethic of any employee here at NORTHSTAR.

He comes in early, offers to stay late, and never complains about any given task. Whether painting and patching inside buildings, or lugging huge LED light heads up and down ladders in the sun and heat, Mohamed has proven he enjoys working with our team.

We couldn't ask for a more dedicated team member!

Thanksgiving Arts & Crafts

Pom-Pom Turkeys

What you'll need:

- Scissors
- 1 sheet each orange, tan, yellow, red and white felt
- Fine-tip black marker
- Hot glue gun
- 2 mini black pom-poms
- 1 1" brown pom-pom
- Brown pipe cleaner
- 1 3" brown pom-pom or 2" brown pom-pom for smaller turkey

Instructions:

1. Print and cut out templates.
2. Place each fan template onto a different color of felt (tan, red, orange and yellow) and trace around with marker. Cut out.
3. Glue felt fans together in a stack, starting with largest piece and ending with smallest. Set aside to dry completely.
4. Make eyes by cutting out two small circles from white felt, then glue mini pom-poms in center of each circle, creating pupils. Set aside to dry completely.
5. Place wattle template on red felt. Trace around it with marker, then cut out. Place beak template on yellow felt. Trace around it with marker, then cut out. Glue wattle to beak.
6. Assemble turkey head by gluing eyes, beak and wattle to 1" brown pom-pom, pressing tightly to hold each in place as they dry.
7. Position turkey head near top of body pom-pom (2" or 3") and glue in place, applying pressure as it dries.
8. Glue fan to back of body pom-pom, pressing as it dries.
9. Cut 2 2" pieces from pipe cleaner and set aside, then cut remaining length of pipe cleaner in half for a total of two long and two short pieces of pipe cleaner.
10. Working with a long piece, bend at 90 degrees about 1" from end to create middle toe of turkey's foot. Attach short piece to long by wrapping it at its middle around bend in long piece. Ends of short piece become first and third toes. Use scissors to trim toes if necessary to create uniform length. Repeat for other leg.
11. Working with a long piece, bend at 90 degrees about 1" from end to create middle toe of turkey's foot. Attach short piece to long by wrapping it at its middle around bend in long piece. Ends of short piece become first and third toes. Use scissors to trim toes if necessary to create uniform length. Repeat for other leg.

Don't forget to vote this Tuesday, November 3rd!

It is an important duty as citizens to elect people who will help to create a better community and environment for growth and opportunity, not only for ourselves but for the future of our local communities and nation.

You can make a difference. So whether you lean to the left, the right, or independent go

out and VOTE!

Because we can add it, enjoy this dog.
